The "slaughter of the innocents" continued at the morning Board to-day, and still lower prices were touched for nearly every description. The feature of the market on yesterday was the large proportion of stocks sold for cash, showing the strong necessity which induced the sales. Sixty-day contracts are now falling due at prices ranging from 10 to 25 P cent higher than these ruling to-day. In many cases parties cannot take up their stocks, and they must be thrown on the market at any price, thus aiding the downward movement This fact, with the using up of margins, continues to supply more shares than the market can absorb, and hence these tears. It is generally thought that the weak parties have been nearly cleaned out during the last thirty days, and that the panic, having no more material to work upon, will soon abate; however this may be, there is evidently to-day an accession of outside buyers for cash, buyers who have the money with which to pay for stocks, without resort to loans, and who have confidence that the political skies will soon elear up, and that stocks are cheap at present prices, even if they do not. These buyers are daily nereusing in numbers, and we think it requires but a mederate gleam of light from the South to bring about an entire change in the tone of the market, and bring in the public and the street as rabid to buy as they have been for a week or two past to sell. The bears were not active to-day, and the short line of the street is probably very small. It was almost impossible to execute time orders on buyers' options without paying exorbitant differences. Central, when selling at 71 regular, sold at 74, buyer sixty, equal to 24 & cent per annum for money. Central was 724 before the Board, but when the session opened it was poured out freely at 70 2701, under great excitement. It, how-ever, strengthened as the call proceeded, and sold at 711 against 74 yesterday afternoon. Erie fell off 2 & cent. and Hudson River 3 P cent. The Western Shares were all heavy, but in some cases improved at the close. The supply of Illinois Central was large, and the decline was 2 \$ cent. Toledo was among the firmest stocks, selling at yesterday's prices. Between the Boards the market was irregular, and at the Second Board, although feverish, generally higher than at the close of the morning session. Central was lower, selling at 704. but most of the Western shares showed an improvement. After the Second Board, there was a much more cheerful feeling, and the bears were taking in some shorts. There were some large orders in the Board from outside parties, and prices were strengthened by more favorable advices from the South. The market is very sensitive, a large number of operators watching carefully for the first symptom of returning health in the political world. Central sold up to 724 in in the street, Galena to 60, Rock Island to 53), Illinois Central to 602, &c., all showing considerable advance on morning prices. Railroad Bonds are heavy, and only moderate amounts can be sold. State stocks also suffered in the stampede to-day, Virginia selling down to 85, a decline of 2 ₱ cent. Missouri 6s fell off 2] ₱ cent, and Tennessee 5 P cent on the last registered rale. Governments were heavy, and private sales of 5e, 1874, were made at 99. The closing prices were: United States Fives, 1874, 100 @ 1004; Tennessee Sixes, 80 2 84; Virginia State Sixes, 85 2 86; Missouri Sixes, 721 @ 722; Canton Company, 16; Pacific Mail, 831 & 84; New-York Central, 72 | 273; Erie, 28 | 29; Hudson, 49@491; Harlem, 131@14; Harlem Preferred, 20 #304; Reading, 33] #34; Michigan Central, 51; # 512: Michigan Southern and Northern Indiana, 141 a 14; Michigan Southern Guaranteed, 314 2 32; Panama, 114@115; Illinois Central Scrip, 601 261; Galena and Chicago, 60 & 60; Cleveland and Toledo, 27; a 281; Chicago and Rock Island, 531 254; Chicago, Burlington and Quincy, 73 2731; Illinois Central 7s.

92 a 921; Delaware and Hudson Canal, 92. The market is very unsettled for foreign bills, and the demand is very limited. The range of rates is 105 @ 1071 for sterling, the transactions being at 107 for best signatures. Southern bank bills are on the list, but can only be negotiated at low rates. We heard of sales of the Bank of Charleston as low as 106, and we learn that some other signatures not salable have gone forward for collection, the proceeds to be sent home in gold. Previously reported. \$53,576,219 \$56,323,619 \$1,469,707 The business of the Clearing-House was \$27,361,772.

The Manhattan Fire Insurance Company has declared a semi-annual dividend of 5 P cent, payable Dec. I. During the past week the Artisans' Bank redeemed \$20,000 of its circulation, and paid off \$39,315 of deposits. Its loans were reduced \$90,000. The drain of gold to the South to-day was \$400,000, of which one half was for New-Orleans. The bullion brokers report no demand for bars or for foreign gold, and sovereigns were down to \$4 80, doubloons \$15 50 a \$16. The recent receipts of California gold, in consequence of the cessation of foreign ship-ments, have been ordered to be coined. The banks to-day had very large offerings, and discounted up to their receipts, for dealers who had any claims upon them. The principal contraction is in managers appear disposed to accommodate their customere, as far as prudence will permit. In the discount houses the same state of things exists, as has been be-fore described. There is no currency for paper, even at higher rates. Very leading names, at sixty days to four months, have been sold at 12 #18 P cent, and but SKINS—The market for Goat has been market for have easy to report sales of 22 bales California, 1 In average, at 25c. each, 6 mos.

SHOT—We quote Drop and Buck at 6,27c. cach.

SPELTER is still dub and heavy, and prices are nominal.

SFEDS—A moderate buckness design Clover Seed, the supply is moderate sales of 370 bags and bibs, at 10,250 dpc. Timothy Seed is quiet at \$2.75c. \$2.87c. \$p\$ bush. Rough flax Seed is quiet but firm at \$1.90 pb bush.

TALLOW—Holders are firm; the demand is active; sales of 55.060 ib 10,2 10 bc, the latter for extra, and 50.000 it Tallow Oil at Sec. 200,000 ib Tallow in Philadelphis for this market, on very few transactions could be made at these rates. The distrust in regard to paper is very great. On demand, money is in active request on the best collateral at 7 V

We have heard of very few failures yet, either among merchants or stock brokers, but it is evident that he present inability to use bills receivable cannot coninue long without producing commercial disaster.

Dispatches and letters received to-day from Charleston are more encouraging. A leading banking house has assurances from its Charleston correspondent that the banks of that city will not suspend, and that business generally is going on smoothly. It was currently reported in the street that the South Carolina Con vention had been postponed to the 15th January.

This action came on for argument upon exceptions to the report of the Commissioner, to whom it was referred to report the amount of damages estained by the bark Hannah Sprance, at Fernanduce, in April, 1883, by a collision with the tip Coriolams.

The Commissioner reported the sum of \$11,120 damages, he conside \$5,249.90 birecest thereon from the date of the collision. It was contended by the counsel for the respondents—

1. That the sum reported was the amount of an estimate of what it would have cost to refit the bark and put her in a sea worthy condition, and had no reference to the amount of damages done by the collision.

2. That the Commissioner had no right to allow interest—the decree being allent upon the subject—that interest in a case of tort is in the discretion of the Court and not of the Commissioner, and may be allowed or disallowed by the Court, at trany see fit under all the circumstances of the case.

3. That the Commissioner errod in refusing to allow the respondents to prove by witnesses in New York what it would have cost here to repair the injuries proved to have been done by the collision—following up such estimate by proof of what is the redinary difference in the case could the respondents be liable.

4. That to no view of the case could the respondents be liable.

Alleged D. Wallace est. James McCarty.

This action was brought to recover \$3,000 and interest advanced by the plaintiff to the defendant in 1837. The defense set up was that the money was a loan upon a narrious agreement. The defendant testified that he was engaged in buying and ceiling sheep at the Lower Hall's Head, and at the time of the loan in question, he had made an arrangement with the plaintiff to advance him such some of money as he might need in paying off dovers, for which he paid the plaintiff one cent per lead for every sleep sold, that this rate of compensation exceeded the sum of seven per cent per year.

The plaintiff testified that the defendant sold sheep for drovers to but here upon a commission of ten cents per head, and to fadilitate and only ret the defendant's insulates he agreed to make advances to the defendant upon the accounts and bills against builders arrising from such sales, and for this purpose to keep hooks, in which the defendant's also and accounts were entered. That he also kepta carb, besides viving his cover these and labor the collection and receiving the money due upon such inchessy in collection and receiving the money due upon such inchessy in the matter of a discount upon the bills or a commission for collection can be occards, while making while one commission for collection can be occards, while making while one commission for collection can be occards, while making while one commission for collection can be occards, while making while one commission for collection can be occarde, while making while one commission for collection can be occarde, while making while one commission for collection can be constant, the plaintide of the labor of a discount upon the bills on a commission for collection can be constant, the plaintide of the collection of a discount upon the bills of the collection of a discount to occards.

statute did not apply to such an agreement. But if the Jury be-lieved the defendant's statement that the one cent per head al-lowed plaintiff was for the use of the measy upon a loan, then the the transaction was nearlous, as such rate of compensation ex-ceeded seven per cent per year.

the trainaction was neurious, as such rate of compensation are resided seven per cent per year.

The Jury soon afterwards returned into court with a verdict for the plaintiff for the sum of \$4.066 20.

THE VALLEY RANK AND STEPHEN D. DILLATE'S PAPER Amos Robbins and Eli Robbins agt. Stephen D. and Henry A. Dillays.

This case grew out of transactions connected with the estebrated Valley Bank, owned by the Messas Ledand. The compisint sets out that the defendant, Stephen D. Dillays, made his premissory note for the sum of \$550 persible to the order of living A. Dillays, by whom it was indoned to Simeon Leland & Co., who subsequently indoreed it for value, and delivered it to the plaintiffs. Subsequently a second note for the same amount was made, indexed by the same parties, for the amount of both of which the plaintiffs saked judgment.

From the enever, it appears that the notes were made by Septem D. Dillays and indoreed by Henry Dillays for the purpose of being discounted by Simeon Leland & Co., that the amount of the notes were paid in the Valley Bank bills, and received by the defendarts of their par value; when, in fact, the lills were below part that it was understood between the parties that the arrangement was made for the purpose of circulating the bills of the Valley Bank it was understood between the parties that the arrangement was made for the purpose of circulating the bills of the Valley Bank and also, it is alleged for the purpose of enabling Simeon Leland & Co. to obtain more thair 7-per cent interest upon their money which made it a usurious contract, and freed the defendant from obligation to pay the motes.

It was also alleged, for a second defense, that at the time the notes were discounted, the Valley Bank was involvent and numble to redeem its circulating notes, which fact was known to Sincen Leland & Co., but not generally known in New-York, and was frandale

the notes had matured.

Lyon the trial of the action at a Circuit of the Supreme Court in this city in 1958, the Justice charged the Jury that the defens of usury is good against a boun side holder; that if the notes in soft were given under an arrangement that they were far the lidle of the Valley Bank at par, when they were known to be at a discount, then they must find for the defendant. To this proposition among others the plaintiffs coursed expected.

The Jury returned a verdict for the defendant. The case is now before the General Term of the Supreme Court upon an appeal from an order made at Special Term, denying a motion made by the plaintiff for a new trial.

Mr. Joachimsen, for the prisoners, remarked that it swould depend upon which of the indistincts was to be tried whether he would be in readiness or not. If for the misdemeanor, he would be: but if for the capital offense, he could not. He could not name the time either, for the following reasons: When the vessel was selved of the Coust of Africa there were a number of persons on board, including, as he was informed, the parties really analys of the effense with which these prisoners were charged. A sort of court marrial was held on the Moldon, where it was decided to let all the prisoners free except the three now in castody. It would be important that these facts should be established on the trial.

THE DANGERS OF DOUBLE WEDDINGS .- Mike Mar-

tin and Arthur McDonald, two jolly chums and bosom friends, porters together in a New-York house, were in the habit, about six months ago, of going to a certain restaurant in Fulton street, New-York, regularly every day to dine. At this house were employed two of Erin's lovely daughters, sisters, named Catherine and Ellen Stelliton, in the capacity of waiters.

Martin and McDonald became enamored, and daily sat tegether at the same table, and were waited upon by the same fair lands. It is unnecessary to go through the details of the conrtshir; suffice it to note that the arrangements were made for a double wedding to come off on Saturday night last, at the house of Patrick Shegmessy in North Second street was considered in the same street was laid in, the priest was notified, the bridesmaids were in readiness. Pat himself was glorious, and the brides and bride grooms were arrayed in fine splendor, and bore countenances radiant with joy and anticipated happiness. The priest put on his gown, the ceremony was read over, the vows were rereated, the two couples were pronounced men and wives. From that time on all was jellity till midnight. By this time most of the company had become rather tipsy, and the newly-made brides became sleepy. The bridesmaids accordingly conducted them to their separate bridal chambers, which had been prepared in Pat Shognessy's house, where the newly-wedded pairs were to board for the future. After several more imbibations, Michael began to feel sleepy, and, besides, felt somewhat anxious to know how his wife rested in her new ounters. So he thought he'd go to bed. As soon and Ellen Shelliton, in the capacity of waiters. what anxious to know how his wife rested in her new quarters. So he thought he'd go to bed. As soon as he could he stole away from his com-parions, and went softly up stairs to his room. Disroting hastily, he bounced into bed, but Disrobing hastily, he bounced into bed, but was startled and surprised by a female voice from under the hedelothes, "Och! ye thaif, ye thaif, go way wid ver," continued in an indefinite number of screams and exclamations. Mike soon found he was in the wrong room, that it was not his Ellen but Kate, whose cries had startled him. Ellen, in another room heard the cries of Kate, and from sym-pathy screamed also at the top of her voice. In the mean time Arthur thought to retire, but in doing so he also got into the wrong room. The two women shrieked at the tops of their voices, the men rushed frantically to each other's rooms in deshabille, each swore at the other and accused him of rangity actions, the folks down stairs came or and mixed in the melec, and an down stairs came or and mixed in the melee, and an irrepressible conflict between all parties raged most furiously, and in all probability would have endured until the present time had not a couple of police officers stepped in and ended the matter by carrying off the two bridegrooms. Poor fellows! The first night of their married lives had to be spent in the cells instead of the bridal chamber, and to console and comfort each other the two brides tucked into one bed. On Monday all concerned appeared before Justice Colahan, when the above story being toll and corroborated, mutual explanations and apologies followed, and the happy couples were allowed to depart to enjoy their honeymoon.

THE PURCHASE OF THE SHIP ROMULTS,-We ar scared that the mystery thrown around the purchas of the ship Ronalus, at Mystic, a short time since, by a correspondent of The Providence Journal, is entirely groundless, and that the vessel is to be used in legitimate trade. A correspondent writes us:

"A merchant of this city, engaged in the Australian trade, di-send an experienced man to Mystic and Stonington, and pur-chased three vessels the Cincinnuti Tybee, and Romains. The first is now leading in this port, and will sail for Australia in a few days. The second has already sailed for Cette, in France, with a full carge of starce. The last he resold, within a week to a Boston purchaser, at a profit of 50 per cent. The last boyer took an order for the delivery of the ship, so that she never come into the possession of the New-York purchaser. I am also informed that she was fitted out as a whaler, at Cold Spring and has not been at Greenport, as represented. It may be that the Romulus has not gone on a whaling voyage, but it is well known that the New-York purchases agree purchased her or may tilling

vessel for an filegal traffic; and it is an antrath that he or his agent ever pretended that they had several million feet of lumber to load for Australia, or that they purchased the vessels for any other purpose than as a speculation, to be sold to the highest bid-der who has the money to pay for them."

NEW-YORK FEMALE ASSISTANT SOCIETY .- The forty-seventh anniversary of this excellent Society, composed of ladies representing many of the leading fami-lies of the city, was held yesterday at 12 o'clock, in the consistory rooms of the Reformed Datch Church, corner of Lafayette-place and Fourth avenue. The object of the Society is to relieve the sick poor, without reference to color or nation. An active Visiting Committee is constituted for this purpose, who furnish articles necessary, on application for relief, but never give any money. The directresses are Mrs. Gallatian, Mrs. Brown, and Mrs. Skidmore. The Rev. Dr. Roche of the Methodist Church delivered an address upon the subject of general benevolence, and the exertions and devotedness of ladies in causes like the present. About 30 ladies were present, who listened to the remarks of the preacher with much interest.

SEWER CONTRACTS .- The Croton Board yesterday warded the following contracts, in the presence of the

Sewer in Fifty-fifth street, from Third to Fourth avenue; awarded to James Crimmins at \$5,672 45; time, 17 days; executes. Thes. Addis Emmett and Chas. Devila, in the sum of \$5,000 each.

Sewer in Lewis street, from Stanton to Houston; awarded to Matthew Murray at \$1,375.50; time, nine days; sureties, Patrick Lynch and John Fitzpatrick, in \$1,000 each.

-President Lord of Durtmonth College, whose extreme Pro-Slavery "Letters" have made him known somewhat in political circles, voted for Bell and Evcrett. To have shown that "consistency" which he professes so much to admire, he should have run an Independent ticket, Gerrit Smith-wise, headed by him self, with, say, Chas. O'Conor for Vice.

ARRIVAL OF THE KANGAROO .- The British steamship Kangaroo, Capt. Brooks, from Liverpool Oct. 31, and Queenstown Nov. 1, with merchandise and passengers to John G. Dale, arrived on Tuesday morning. Her news is not so late as that by the North American. The steamship City of Baltimore, hence, arrived at Queenstown on the 1st inst.
